Experience

Asmara International Limited - Web Designer

2020 - 2021

Designed and developed Webpage in converting documents to webcontent. Designed logos for the company's inhouse app. Worked in projects of web development using frameworks.

Sahyog Design Way - Intern Architect

2019

Consulted and created signage details, brand identities, editorial designs and print materials for various clients. Conducted research and design on spacial analysis to examine the relationship between design and culture, and create research-informed design concepts to build a foundation for future branding initiatives.

Design Square Architects - Internship

2018

Drafted documentational drawings, while recreating the hard copies to soft copies. Gained much exposure to give detailed drawings along with preparing presentations.

Education

UX Design, Udemy & Coursera

2020 - 2021

I took up courses on Web design to gain the knowledge of tools. Then, enrolled with Google's UX Design, where it helped me upskill myself with the working tools and processes in designing and developing any app.

B.Arch, St.Peter's College

2015 - 2020

My Architectural studies were creative, fun and problem solving. The study of past histories gave me inspirations to be productive. There were projects, which helped me gain skills creating illustrations, visuals, empathy studies, and design process.

HSC, SRV Hi-tech School

2015

I studied Biology and Maths as my major subjects in High school. I was in residential campus, which gave me opportunities to explore and be social and self-dependent.
